

## Features and Benefits

### Features:

- True Single Coat
- No Upper Limit to Moisture
- 100% Solids Epoxy
- 100% Reactive
- Perm Rate: .07
- Withstands pH of 14
- 4 Hour Cure Time
- Compressive: 14,500 psi
- Spread Rate: 150 sq ft/gal.
- VOC Emissions: 0.00 g/l
- No Sand Broadcast
- High Mechanical Resistance
- High Chemical Resistance
- Meets ASTM F3010
- No Fillers, Extenders

### Benefits:

- Installs on Concrete 3 Days Old
- Acts as a Curing Compound
- Helps Prevent Curling and Cracking
- All Trades Can Work Sooner
- No Moisture Testing, Ever
- Environmentally Responsible
- Total Floor is Covered, Under All Walls and Partitions
- Zero VOC Emissions
- Will Not Impact Indoor Air Quality
- Contributes to LEED Credits
- Helps to Compress Construction Schedules
- Helps Eliminate Mold and Mildew
- SAVES TIME!
